# A control layer, not an AI personality.

EXORYN is positioned as infrastructure between autonomous financial agents and execution. The brand must signal machine precision without looking like a consumer trading app or a speculative AI product.

## BRAND IDEA

# Autonomy, bounded by trust.

## TRAITS

## LOGO RULES

- Use supplied artwork only.
- Do not add glow or 3D to the master logo.
- Never rotate the icon.
- Keep clearspace = central-core width.
- Monochrome is preferred for legal/technical

The icon is an abstract exoshell: four structural blades form an X around a controlled core. The center represents the financial intent; the outer structure represents attribution, authority, policy and evidence surrounding execution.

## PRIMARY TAGLINE

**Control before execution.**

## AVOID

Avoid “revolutionary AI”, guaranteed-safety claims, “AI magic”, investment-performance promises, and language that turns EXORYN into a financial adviser.

## MESSAGE LINES

**Autonomous finance. Institutional control.**

**Trust the action, not the prompt.**

**Machine speed. Human authority.**

**Observe the fleet. Control the boundary.**
